

Choose to Lose

Tammy Lindberg, Lt Col, USAF, BSC

Overview

- Obesity in the Air Force
- “Choose to Lose”
- Program Elements
- Marketing
- Worksite: Home or Deployed
- Data Collection
- Relevance
- Summary

Obesity in the Air Force

- Annual direct and indirect costs estimated at \$23.9 million and \$3.3 million, respectively, for a total of \$27.3 million.
- Direct care costs approx 7% of all annual Air Force expenditures for active duty medical care. Annual Overweight/Obesity-attributable lost workdays were estimated at 33,635.

Reference:

Robbins, A.S., Chao, S.Y., Russ, C.R. & Fonseca, V.P. (1997). Cost of Overweight and Obesity Among Active Duty Personnel—United States Air Force. Air Force Medical Operations Agency.

Obesity in the Air Force

- In 2007, 38% of the Active Duty personnel of the 37th Training Wing at Lackland AFB were categorized as overweight (7% obese) while 50% of the 59th Medical Wing were classified as overweight (10% obese).

Choose to Lose

- 12-week weight loss competition
- All participants are part of a 6-member team
- Each participant is given a weight loss goal
- Point system integrated throughout worksite
- Grand Prize

Program Elements

Education

- Online CBT with “tasks” for points at the finish
- Located on WHMC Intranet
- Topics: Basic nutrition for weight loss, label reading, food guide pyramid, portion control, exercise, medical aspects of overweight/obesity, fad diets, etc.

Dare to Stair

Implemented Healthy Foods

Labeled snack machines

Marketing

- Marketing began 1 month prior to “kickoff”
 - Elevators (weekly)
 - Vital Signs article (WHMC newsletter)
 - Marque
 - Daily announcements (email)
 - Table tents in the dining facility
 - Orientation
 - Online “interest” survey

Make the right choice **CHOOSE TO LOSE**

Watching calories, fat and sodium? You can easily identify healthier food choices by looking for this icon. Choose to Lose by selecting healthier food items throughout in vending machines and in the dining hall.

Vending machine items are identified with the Choose to Lose logo that are less than or equal to:

9 grams total fat
2.5 grams saturated fat
480 milligrams sodium
300 calories

Hospital Dining Hall items are identified with the Choose to Lose logo that are less than or equal to:

Entrees: 15 grams of fat/100 mg of cholesterol
Non-entrees: 3 grams of fat/10 mg of cholesterol

Vending machine sticker

"Winning the Losing Battle"

Watch for more info in the Vital Signs

Worksite Year One

- Staffed by
 - 2 Dietitians, 2 Technicians, 1 Coordinator
 - Equipment: 2 scales, table, goals calculation sheets, calculators
- 250 signed up
- 90 finished program
- 532 pounds lost

Worksite Year Two

- Dietetic Intern Project 2008
 - 2 interns
 - 6 technicians; 2 RD preceptors
- Participation
 - 434 signed up, 315 showed up, 132 finished
 - 1598 pounds lost

Deployed

- Outpatient nutrition clinic opens Balad Air Base Sept '07
- Staffed by 2 technicians, 1 RD
- Initiated Choose to Lose
- 88 Signed Up
- 86 Finished
- 589 pounds lost

Data Collection

- Weigh-in, pedometer points, exercise points recorded on team sheets each week
- Excel spreadsheet
 - Completely formula driven
 - Team progress sheets (given bi-monthly)

Relevance

- DoD spends estimated \$1.1 billion/year for medical care related to excess weight & obesity

DoD \$167 million/year for non-medical costs associated with excess weight & obesity

Reference:

Dall, T.M. et al. (2007). Cost associated with being overweight and with obesity, high alcohol consumption, and tobacco use within the Military Health System's TRICARE prime=enrolled population, *American Journal of Health Promotion*, 22(2), p. 130
